

<u>Title:</u>	<i>Basic FIB operator training</i>
<u>Training duration:</u>	<i>3 days</i>
<u>Training cost:</u>	<i>Groups of 1 – 5 trainees, US\$3600 per group</i>
<u>Background required:</u>	<i>Introduction to Focused Particle Beam Technology, or equivalent knowledge</i>
<u>Student Objective:</u>	<i>Know and understand major components of FIB system, independently load sample, obtain image, perform basic milling and deposition operations. Independently perform daily maintenance and basic calibrations</i>
<u>Equipment:</u>	<i>Micrion 2000, 2500, 9000, 9100, 986, 986FC, Vectra 986(+), VectraVision,</i>
<u>Syllabus:</u>	<i>Available online: www.partbeamsystech.com/training</i>
